

Accelerating the Use of Electronic Care Plans

Leah Broadhurst

Georgetown University School of Medicine

Introduction

- The Office of the National Coordinator for Health Information Technology
- The Federal Health IT Strategic Plan, 2015-2020 goals
 - Expand adoption of Health IT
 - Advance secure and interoperable health information
 - Strengthen health care delivery
 - Advance the health and well-being of individuals and communities
 - Advance research, scientific knowledge, and innovation
- The Use of Electronic Care Plans
 - Examples
 - Barriers to implementation

Methodology

Phase 1

- Background Paper

Phase 2:

- Listening Session

Phase 3:

- Outcome Paper

Findings

SUCCESSFUL CARE PLANS

Conclusion and Recommendations

Further Questions:

- Who is the owner of the care plan?
- Can patients edit their own care plans?
- What is the role for the specialist?
- Care Coordination improves outcomes
- Electronic Care Plans are the future
- Additional feedback from even more stakeholders
